- 8:40 - 8:45 A.O.B. / CLOSING REMARKS (Grig Cameron)

Reminder: Feedback & Suggestions ? : Brian Platts bplatts@shaw.ca

Seymour River Canyon Trail Connections

Public Meeting

Thursday, June 25, 2015

Capilano University

2055 Purcell Way, District of North Vancouver, BC

Multi-purpose Room (Sports Complex)

6:30 - 9:00 PM

In December 2014, a significant rockslide occurred in Seymour River Canyon approximately one kilometre north of Riverside Drive. This rockslide partially blocked the Seymour River and increased the water level upstream, flooding area trails and causing the need for removal of the Twin Bridge.

To ensure the trail network offered in Seymour River Canyon continue to be both safe and accessible for recreational users, Metro Vancouver is in the early stages of gathering input on:

- a new pedestrian bridge across Seymour River,
- new trail connections,
- trail maintenance/operations access at Riverside Drive

Metro Vancouver recognizes the importance of the impacted trails and is committed to working closely with the community to address concerns, discuss options and identify new opportunities for the LSCR trail network in Seymour River Canyon.

If interested **Call:** Community Liaison
Officer at 604-436-6986
