

Reservoir Levels and Daily Consumption

[Home \(/Pages/default.aspx\)](#) > [Services \(/services/Pages/default.aspx\)](#) > [Water \(/services/water/Pages/default.aspx\)](#) > [Conservation & Reservoir Levels \(/services/water/conservation-reservoir-levels/Pages/default.aspx\)](#) > Reservoir Levels and Daily Consumption

This year, during Stage 3 of the Water Shortage Response Plan, we will be posting our daily consumption.

Daily System Consumption Summer 2015

[Be Water Wise This Hot, Dry Summer](http://www.metrovancouver.org/services/water/conservation-reservoir-levels/summer-water-2015/Pages/default.aspx) (<http://www.metrovancouver.org/services/water/conservation-reservoir-levels/summer-water-2015/Pages/default.aspx>)

[Seymour and Capilano River Levels](http://www.metrovancouver.org/services/water/conservation-reservoir-levels/seymour-capilano-river-levels/Pages/default.aspx) (<http://www.metrovancouver.org/services/water/conservation-reservoir-levels/seymour-capilano-river-levels/Pages/default.aspx>)

[Testing & Reporting](http://www.metrovancouver.org/services/water/quality-facilities/testing-reporting/Pages/default.aspx) (<http://www.metrovancouver.org/services/water/quality-facilities/testing-reporting/Pages/default.aspx>)

[Take a Tour of the Watersheds this Summer](http://www.metrovancouver.org/events/watershed-tours/Pages/default.aspx) (<http://www.metrovancouver.org/events/watershed-tours/Pages/default.aspx>)

[Watersheds & Reservoirs](http://www.metrovancouver.org/services/water/sources-supply/watersheds-reservoirs/Pages/default.aspx) (<http://www.metrovancouver.org/services/water/sources-supply/watersheds-reservoirs/Pages/default.aspx>)

[Lawn Sprinkling Regulations](http://www.metrovancouver.org/services/water/conservation-reservoir-levels/lawn-sprinkling/Pages/default.aspx) (<http://www.metrovancouver.org/services/water/conservation-reservoir-levels/lawn-sprinkling/Pages/default.aspx>)

Metro Vancouver also posts reservoir storage levels **June to November**, when rainfall is lower and the regional demand for water is higher. The information is updated each Tuesday.
