

FONVCA AGENDA
THURSDAY July 17th 2008

Place: DNV Hall 355 W. Queens Rd V7N 2K6

Time: 7:00-9:00pm

Chair: Diana Belhouse – Delbrook C.A.

Tel: 604-987-1656

Regrets: David Knee, John Miller, Eric Andersen (sub Fred

Gooch)

1. Order/content of Agenda

2. Adoption of Minutes of June 19th

http://www.fonvca.org/agendas/jul2008/minutes-jun2008.pdf

3. Old Business

4. Correspondence Issues

4.1 Business arising from 2 regular emails:

4.2 Non-Posted letters – 0 this period

5. New Business Council and other District issues.

5.1 Freedom of Speech – Rafe Mair

http://csc.lexum.umontreal.ca/en/2008/2008scc40/2008scc40.html http://www.rabble.ca/babble/ultimatebb.php?ubb=get_topic&f=2&t=009833 http://www.straight.com/print/151918

5.2 DNV Annual Report

Public response in Council Chambers – **7pm** Monday June 23/2008.

http://www.fonvca.org/agendas/jul2008/Synopsis-of-2007-annual-report-by-kost.pdf

5.3 Questions for 2008 Municipal Election

- Council breaks Jul 14 till Aug 18
- Voting day Sat Nov 15th
- Nomination period 9am Tuesday Sep 30 to 4pm Friday Oct10

http://www.dnv.org/upload/documents/Election_2008/election_calendar_2008.htm

11 Questions of 2005

1. Should community associations play a larger role with respect to local neighborhood and district-wide issues?

- 2. Do you advocate any further significant growth in specific areas of the District?
- 3. Do you support increased maintenance of our parks and public areas? If so, how?
- 4. Will you support the current council policy requiring a referendum in order to undedicate previously dedicated parks?
- 5. What are your primary goals/visions for the District over the next 5-10 years?
- 6. Which areas of municipal activity would you change in order to minimize tax increases?
- 7. What strategies would you pursue to control future tax increases?
- 8. What practical experience qualifies you for local governance?
- 9. Do you support the concept of community based planning?
- 10. What major issues are you concerned about in the District of North Vancouver?
- 11. What do you propose to do about the apparent lack of enforcement of our bylaws?

For the complete list considered in 2005 see http://www.fonvca.org/agendas/sep2005/agenda.pdf

5.4 DNV Statistics (2006 Census)

FONVCA

Minutes Thursday June 19th 2008

Place: DNV Hall 355 W. Queens Rd V7N 2K6

Attendees

Eric Andersen (Chair) Blueridge C.A. Cathy Adams Lions Gate N.A. John Miller Lower Capilano C.R.A.

Corrie Kost Edgemont C.A. Diana Belhouse (Notes) Delbrook C.A.

Hugh Murray Lower Capilano C.R.A.

Dan Ellis Lynn Valley C.A. Brian Platts Edgemont C.A.

Time at start of meeting: 7:10pm

Regrets: Val Moller, David Knee

1. ORDER / CONTENT OF AGENDA Added items:

Added Items: Under section 6.2

- a, email by David Knee re: new sewage plant
- b. "road to hell is paved with public transport"
- c. "answer to urban traffic congestion cars"
- d. "Mayors rule out regional police force"
- e. Shared dock facility proposal

2. ADOPTION OF MINUTES

May 15th minutes were approved as circulated.

3. OLD BUSINESS

3.1 Council's Increased use of Consent Agenda

A letter was sent to council in accordance with the unanimous FONVCA resolution at the May 15th meeting. Copy posted on web site as

http://www.fonvca.org/agendas/jun2008/FONVCA-letter.pdf Response by Councillor Nixon at

http://www.fonvca.org/agendas/jun2008/FONVCA-letter-response1.pdf

4. CORRESPONDENCE ISSUES

Agenda for broader discussion.

4.1 Business arising from 6 regular e-mail

Correspondence on various issues. No action/items generated except for letter

http://www.fonvca.org/letters/2008/12mavto/John Paul Morrison 21may2008.pdf which resulted in distribution of 33page article "Smart Growth – Threatening the quality of urban life" by Wendell Cox of Frontier Centre for Public Policy. http://www.fcpp.org/main/publication_detail.php?PubID=701 This item will be placed on the next FONVCA

4.2 Non-posted letters – 0 this period.

5. NEW BUSINESS

Council and other District Issues

5.1 Government 2.0 The Next Generation of Democracy

http://www.internetevolution.com/author.asp?section id=506&doc id=154118&

http://www.socialtext.net/wiki-government-anddemocracy/index.cgi?government 2 0

http://www.networkedgovernment.ca/Government2Williams

The referenced articles demonstrate how the internet has completely changed the way governments at all levels interact with people. A potential subject for a more in-depth discussion at some future date.

5.2 DNV Annual Report (Released June 6th)

Public response to be allowed in Council Chambers - 5pm Monday June 23/2008. "This is your opportunity to ask questions or make submissions on any aspect of the report." It was shown how some other municipalities have been tracking "Quality of Life" indicators (Township of Langley, West Vancouver). The DNV report was felt to be too general by some and lacked this (required) long term tracking. Graph from Port Moody's annual report showed DNV 2nd highest for Tax & Utility charges for an average home.

This year's DNV annual report, being available in hard copy form, was felt to be a positive step over last vear.

DNV spending growth (reported in Vancouver Sun on 5 June/2008) from 2000-2006 of 43.1%, with population and inflation component accounting for 15.2% is not sustainable. Port Moody did much better with comparable figures of 44.2 and 39.5%. Corrie showed a graph indicating how municipal taxes in the DNV, after adjusting for inflation, have grown at an unsustainable rate for the average home since 1975.

5.3 Blueridge Good Neighbour Day, June 8 2008.

Report by Eric- was held on a Sunday a couple of weeks ago and was a lot of fun, due to hard work of many volunteers. Lots of children's events and some 500 free hot dogs, a parade, and a magician. Ref: http://members.shaw.ca/blueridgeca/

5.4 The price of freedom...

From May 26th Agenda/Minutes of West Vancouver

Resolution that the Province be requested to consider amending the Freedom of Information and Protection of Privacy Act to provide the option for recovery of actual request processing costs.

FONVCA members felt that this was not a good approach – with many problems resulting from "selling" public information. Some felt that putting a price on information requests could lead to bureaucrats putting an artificially high price on information in order to stonewall such requests. The frequency of requests can vary rapidly over time and/or issues. It was stated that BC Hydro lists contents and corresponding charges before an order is placed. Requests for information some years ago, when Seymour was working on their OCP, resulted in much staff work and large volumes but were done at no charge to the customers.

References:

http://library2.usask.ca/gic/17/nilsen.html (hard copy distributed)

http://space.frot.org/docs/why-free.html http://www.atirtf-geai.gc.ca/report/key_points-e.html

5.5 Freedom of the District Ceremony

Despite council policy 1-0220-2, the meeting of council to award 4 citizens of the DNV the Freedom of the District, held 7pm, Monday June 9/2008, immediately following a 6pm Council Workshop, was largely unknown to district residents since there was minimal information provided prior to this ceremony – which appears not to have been recorded as well. Although the awards were announced at a Council meeting in February, if advertised the general public may have not had enough space to be seated. Corrie and Cathy attended by chance and said that it was a lot of fun, but there was no opportunity to stand-up and applause when the award for the late Ernie Crist was announced. Dan Ellis announced that the NV Golf Course Society will be planting a tree in memory of Ernie Crist near the 18th hole and the Northlands Club House.

5.6 Alpine Trails Plans – DNV Council July 7

An article from Monica Craver, outlining her usual concerns was distributed. Feeling was that the plan was poorly laid out with unsafe multi-use of trails. An article from June 14th issue of "The Okanagan" - "Illegal mountain bike jumps removed" illustrates the universal problems of this issue.

5.7 Pesticide Bylaw – DNV Council June 16th Option 1 of the bylaw was given 3rd reading on June 16th with only Councillor Mike Little opposed. Staff have promised "soft enforcement" of the bylaw – stressing the educational component. 19 people spoke for the bylaw, with 1 speaking against (Corrie).

6. ANY OTHER BUSINESS

6.1 Legal Issues

Bill 44 – Greenhouse Gas Reduction Targets Act

http://www.leg.bc.ca/38th3rd/3rd_read/gov44-3.htm Excerpts (from Bill St. Arnaud):

Excerpts (nom bill St. Amauu).

Targets for carbon neutral public sector

- 5 (1) Each public sector organization must be carbon neutral for the **2010 calendar year** and for each subsequent calendar year.
- (2) The Provincial government must be carbon neutral for the 2008 and 2009 calendar years in relation to its PSO greenhouse gas emissions that are directly related to public officials travelling on public business for which the travel expenses are covered by the consolidated revenue fund.
- (3) In advance of the obligation under subsection (1), for the 2008 and 2009 calendar years, each public sector organization must pursue actions to minimize its PSO greenhouse gas emissions. Requirements for achieving carbon neutral status
- **6** (1) In order to be carbon neutral for a calendar year, a public sector organization must
- (a) pursue actions to minimize its PSO greenhouse gas emissions for thecalendar year,
- (b) determine its PSO greenhouse gas emissions for that calendar year in accordance with the regulations, and(c) no later than the end of June in the following calendar year, apply emission offsets in accordance with the regulations to net those emissions to zero.

The above applied to our DNV government.

City of Prince George Zoning Bylaw 7850

http://www.city.pg.bc.ca/city_services/cpd/newzoning/ and specifically

http://www.city.pg.bc.ca/city_services/cpd/newzoning/final/report.pdf and

http://www.city.pg.bc.ca/city_services/cpd/newzoning/background_report.pdf is a great example of a recent, comprehensive, review of zoning process. It has an exhaustive list of definitions.

Corrie noted that the review of the DNV OCP has been started and according to staff, should be completed in about 2 ½ years.

6.2 Any Other Issues (2 minute input limit)

a) New Sewage Plant.

David Knee's June 16th email on this was distributed. The proposed new sewage plant, located on the old BC Rail site (same site as failed Costco proposal) is to replace the ageing/inadequate facility under the Lions Gate Bridge. It will be costly. Corrie expressed concern that we should be compensated for at least the taxes that would have accrued to DNV coffers if the Costco proposal had proceeded.

This new facility will prevent toxins and other raw sewage from entering the Burrard inlet. It **should** be a silent and odourless plant.

- b) "Road to hell is paved with public transit"

 May 21st Globe and Mail article by Neil
 Reynolds was distributed. Lots of interesting stats. Public transit good for city cores not suburbs. Note: Re Council Workshop of June 9th Lions Gate Bridge /Marine Dr. Transit Priority it was mentioned that 2+ cars may be allowed on the bus lanes (eg HOV). Some FONVCA members understood it to be a bus only lane.
- c) "The answer to urban traffic congestion? Cars" – May 23rd Globe and Mail article by Neil Reynolds was distributed.
- **d)** Mayors rule out regional police force: Vancouver Sun article of June 5th 2008 was distributed.
- e) Shared Dock Facility on Beachview Dr.
 Public open house 5-9pm Tues June 24/2008
 at Parkgate Community Centre. FONVCA
 members are urged to attend and register
 their views.
- f) Grand Opening of the Lynn Valley Town Centre – Sat June 21st noon-3pm
 Dan Ellis indicated time/date – ceremony to be held in new plaza in front of new library.

7. CHAIR AND DATE OF NEXT MEETING Diana Belhouse Eric Andersen — Delbrook C.A and Save Our Shores. Tel: 604-987-1656 Thursday, 7:00pm July 17, 2008

Meeting was adjourned at 9:05PM.

Rafe Mair wins landmark case in Supreme Court of Canada

By Charlie Smith

Publish Date: June 28, 2008

Broadcaster Rafe Mair often pushed the boundaries of free speech when he hosted talk shows on CKNW and CJOR in Vancouver.

Whether he was dealing with fish farms, Alcan's Kemano completion project, or justice for the mentally ill, Mair always spoke fearlessly and didn't hesitate to criticize lousy public policies.

But his recent victory in the Supreme Court of Canada could lead other commentators to demonstrate more bravery in the future.

Yesterday, Canada's highest court ruled unanimously for the appellants, WIC Radio Ltd. and Rafe Mair, in their eight-year case against Fraser Valley religious activist **Kari Simpson**.

Simpson appeared from time to time on Mair's show, often speaking out against child apprehensions.

However, when Simpson started publicly criticizing homosexuality -- saying it was not "normal" and it was "not acceptable" in her household -- Mair went on the attack. The trigger was her comments at a public meeting in 1999.

In an editorial on CKNW, Mair compared Simpson to **Adolf Hitler**, the Ku Klux Klan, and former Alabama governor **George Wallace**, among others.

"Now I'm not suggesting that Kari was proposing or supporting any kind of holocaust or violence but neither really – in the speeches, when you think about it and look back – neither did Hitler or Governor Wallace or [Orval Faubus] or Ross Barnett," Mair said, according to the decision. "They were simply declaring their hostility to a minority. Let the mob do as they wished."

A 2006 B.C. Court of Appeal decision written by then-justice Mary Southin, concluded that Mair defamed Simpson and couldn't rely on the defence of fair comment.

Southin, who cited extensive case law in her ruling, stated there is "no evidentiary foundation" that Simpson would condone violence, so there could be no further consideration of Mair and WIC Radio's defence of fair comment.

The Supreme Court of Canada, on the other hand, concluded that Mair and WIC Radio could rely on a defence of fair comment.

"Although this is a private law case that is not governed directly by the *Canadian Charter of Rights and Freedoms*, the evolution of the common law is to be informed and guided by *Charter* values," wrote Justice **Ian Binnie** in the decision. "The law of fair comment must therefore be developed in a manner consistent not only with the values underlying freedom of expression, including freedom of the media, but also with those underlying the worth and dignity of each individual, including reputation."

The Supreme Court of Canada stated that the "honest belief" defence of fair comment -- i.e. the disseminator of the comment must believe it to be true -- must be modified.

Binnie wrote that fair comment must contain four elements:

- (a) the comment must be on a matter of public interest
- (b) the comment must be based on fact
- (c) the comment, though it can include inferences of fact, must be recognizable as comment
- (d) the comment must satisfy the following objective test: could any person honestly express that opinion on the proved facts?

The onus is on the defendant to prove this in court.

Plaintiffs can still succeed if they can prove the defendant was "subjectively actuated by express malice".

Justice **Louis LeBel** added the following: "courts should not be too quick to find defamatory meaning, particularly where expressions of opinion are concerned. Triers of fact should be mindful of ensuring that the plaintiff's reputation is actually threatened by the impugned statements before turning to the available defences. The test is whether, in the factual circumstances of the case, the public would think less of the plaintiff as a result of the comment."

7/9/2008 6:26 PM

Synopsis of 2007 Annual Report

Corrie Kost, 2851 Colwood Dr. North Vancouver

The lack of common measurement themes, with a consistent choice of indicators (at least for a core set), which measures the well-being of our community, is the most serious deficiency of this Annual Report.

Universality of Access

The availability for the 2007 annual report has been restored (unlike the 2006 annual report, where not all parts were accessible to those lacking access/expertise to a computer). **This is a positive step**. The centerpiece of accountability is once again available to ALL our residents.

"Natural Steps" are stressed but are they inclusive?

Vision: To be among the most sustainable communities in the world.

Questions: How will this impact livable and affordability? Where was the dialogue with the community that enabled this vision – certainly no OCP process was involved in setting this vision.

Community Engagement:

Only a small fraction of our residents have been engaged in district affairs – mostly in Lynn Valley where DNV is spending the bulk of its resources. Should not resources be equally allocated across the district? (at least averaged, say over a 10 year period).

Policing Review

This is a most welcomed review as to which policing model is most appropriate for our community. This review will eventually impact all our residents. Thus it is important that many more of our residents be involved in this review.

Asset Management

Although, as noted on page 16 of the report, useful lives of our assets have been established, few of our residents are aware of the specifics. The proposal to phase out the William Griffin pool and not have any replacement in the area west of Lonsdale, remains highly problematic. This is a concern to many of our senior users at Griffin and should be addressed in a timely and transparent fashion.

Annual Report Requirements

It is my considered opinion that the 2007 Annual Report fails to meet the minimal requirements of the Act. The failed requirements include (but are not limited to)

- Quality of Life Indicators
- Statistical Analysis
- Objectives/Strategies/Measures/Progress

Quality of Life Indicators:

Crime Rate: The 2005 annual report graphed the yearly crime rate and case burden. The 2006 annual report shifted to comparing to other municipalities instead of to our prior years. The 2007 annual report gives no comparison – not even to other municipalities.

The spending on police services, considering our low crime rate, still appears somewhat high. On the other hand if this results in more officers residing on the North Shore (unknown) then I would find this more palatable.

Fire and Rescue Services

The 2003 annual report listed many measures such as alarm statistics, response times, value of saved property, number of inspections, etc. The 2005 annual report tracked only % of property saved and emergency response times. The 2007 annual report provided no statistics on this whatsoever.

Library Services

The 2003 annual report total tracked items borrowed from 1999-2003. Similarly for library collections additions, # patrons registered, # children and adult programs, etc. The 2005 annual report tracked average per capita circulation as well as the # of visitors/yr. The 2007 annual report provided no usage statistics.

Planning, Environment, Parks, and Engineering

The 2003 annual report tracked such performance measures as # building permits issues, # variances granted, use of GIS website, % building permits processed within 30 days, # watermain breaks, residential sanitation tonnage, recycling tonnage, yard trimming tonnage, etc.

The 2005 annual report tracked such performance measures as # visitors to the ecology center and Maplewood farm, # of watermain breaks, # of failed standards for water samples, % solid waste diversion rate, % roads rated satisfactory or better, # rounds played at Northlands Golf Course, # business licenses issued, and # building permits issued.

The 2007 annual report makes no mention of the solid waste diversion rate, the # of watermain breaks, or even our per-capita water consumption. In fact no measures are provided for anything!

Recreation Commission

The 2003 annual report graphed the usage (# visits) for the years 1992-2003. The 2005 annual report graphed the # visits as well as the % of residents using recreation facilities. The 2007 annual report provided no numerical data on recreational usage.

Financial Statements

Only 4 long term measures are shown this year –

- Statutory reserves
- Investment yield
- Long term debt
- Operating reserves

Prior to 1998 the DNV was debt free. Since then we have accumulated a debt of \$32.4million. The current debt thus stands at about \$371 per capita.

Financial Section:

- The deficit of revenue over expenses of \$6.1 million (which is less than we had in 2005 Annual Report), using generally accepted accounting principles, is still a bit troubling.
- Use of land sales money is now in accord with sustainable practices GOOD news.
- The asset to liability ratio of 1.37, while not as good as the previous year's value of 1.55 is still GOOD news!

Community Engagement:

Except for specific development proposals, both the eastern and western parts of the district saw little engagement in planning a sustainable community. The fact that 2/3 of our residents did not participate in ANY district event or meeting in the last year is telling.

Sustainable Development

If ones asks the question "Are we making choices today that do not compromise the conditions of our capital endowments or assets and our ability to provide for a quality of life for current and future generations" then I have some doubt we can answer this question in the affirmative.

Technical Reporting Requirements

Section 98 of Community Charter says that the annual report must include:

- A report respecting municipal services and operations for the previous year;
- A progress report respecting the previous year in relation to the objectives and measures established for that year;
- a statement of municipal objectives, and the measures that will be used to determine progress

respecting those objectives, for the current and next year;

That is, it must show goals and progress towards to goals year to year. The 2007 report must, by 30 June 2008 "restate the objectives and measures for 2008 as well as a statement of objectives and associated measures for the year 2009". For details I refer council to the Municipal Progress Reporting Guide – Fall 2003.

Some examples:

<u>Sidewalks</u> – how much expansion, how many fixes?

<u>Public Amenities</u> – how many complaints in the current and previous year?

<u>Roads</u> – how many potholes/claims? Time from report to fix?

<u>Solid Waste</u> – how many missed pickups current and last year?

<u>Solid Waste</u> – compliance – for example, how much recyclables in waste stream this and last year?

<u>Policing</u> – number of violent crimes this and last year?

Conclusions:

Here we have a report that literally oozes with quality. It *looks* so professional and at a glance is on par or better than many of those I have examined from other jurisdictions. However...it lacks the elements that make for accountability.

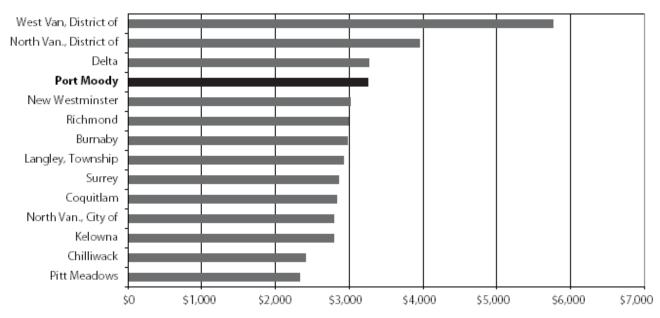

On page 48 of the 2005 annual report it states:

We believe that **meaningful reporting** is achieved when historical perspectives and logical connections are maintained between commitments and deliverables.

I question whether we have stayed true to that belief. There is a lack of indicators which provide our residents with a clear picture of the state of our community. We cannot improve what we do not measure. We need to know the quality of our water and our air. We need to know our crime rate so we can get a true sense of our personal safety. Above all, we need to encourage and track our level of civic involvement.

DNV is #2 based on Municipal Tax & Utility Charges for an Average Home

2007 MUNICIPAL TAX & UTILITY CHARGES FOR AN AVERAGE HOME

Source: City of Port Moody Finance & I.T. Department

Final Questions/Arguments:

- 1. Why not **involve the public in drafting** the contents of the annual report?
 - Canadians have a right to know *what* governments are trying to achieve, *why* governments believe certain activities contribute to their objectives, and *how* governments plan to measure whether they are achieving the objectives. (1)
 - (1) http://www.iog.ca/publications/resultsandpolicy.pdf
- 2. Why does the format of the annual report have to change every year?
- 3. Why reduce/change the number of performance indicators every year?⁽¹⁾ I realize that unnecessary complexity can threaten the successful implementation of a performance framework. (see page 4 of http://www.iog.ca/publications/guide.pdf). However, in that same reference *The fundamental reason why performance measurement matters to us is that it makes accountability possible, and accountability goes to the heart of our system of political governance*.
- 4. What is the state of our Asbestos-Cement water mains? (31% on Jan/2002)
- 5. What are the **balances** (as opposed to revenues as shown on page 50) in the various DCC fund?
- 6. The adoption of new creek set-back requirements an important piece of legislation seems not to have been mentioned anywhere.
