

WE'RE SEEKING MORE INPUT

Second early input opportunity on proposed seniors' residence

Pacific Arbour Retirement Communities is an award-winning owner and operator of seniors' independent living residences. Pacific Arbour recognizes a need for this type of facility and service for the benefit of North Shore seniors and their families.

Pacific Arbour seeks further input on its proposed independent and assisted living residences in Seymour as project alternatives have been narrowed based on feedback received to date. Residents are invited to attend a second "early input"

open house to provide additional comment. The open house will include displays and an informal presentation. Project team members will be available to answer questions.

At this time, no application has been made to the District of North Vancouver and there will be future opportunities for input as part of the application process. Pacific Arbour thanks all who offered their input at the first open house.

Currently identified as "3600 Block," the proposed site comprises three residential lots owned by Pacific Arbour and four lots owned by the District of North Vancouver, which includes the unopened lane allowance on the west and south sides of the property. The site is directly west of Roche Pointe Tower on Mt. Seymour Parkway.
