

# Now Open!

## NEW Keith Road Extension

Thank you for your patience during construction! The new Keith Road Extension moves traffic directly between the Keith Road Bridge and the Highway 1 overpass, enabling a smoother commute and better east-west connectivity. The District of North Vancouver provided funds through the collection of Development Cost Charges, and Seylynn Village Development provided the land and built the road.

District of North Vancouver Mayor and Council joined representatives from Seylynn Village Development to officially open the new Keith Road Extension. Pictured left to right are: Councillors Doug MacKay-Dunn, Robin Hicks, Roger Bassam, Mike Little, Dr. Abo Taheri, Mayor Richard Walton, Farzad Taheri, Dr. Shapour Hosseini, Pedram Hosseini, and Sassan Nikseresht.

This is the first of several transportation improvements planned for the Bridge District.
