Regrets: David Knee, John Miller, Eric Andersen (sub Fred Gooch)

1. Order/content of Agenda

Added Items:

6.2 c. Tax notices and inserts

2. Adoption of Minutes of June 19th

<http://www.fonvca.org/agendas/jul2008/minutes-jun2008.pdf>

Re item 5.5: Dan wanted it noted for the minutes that he had talked to several people who had had no problem with the lack of notice for the Freedom of the District ceremony

Re item 6.1: Corrie noted that the reference to Mr. St Arnaud was to indicate authorship to the quoted passage and not an appeal by Mr. St. Arnaud to FONVCA

With these changes the June 19th minutes were approved as circulated.

3. Old Business

Has there been any feedback on the FONVCA letter to Council on use of the 'Consent Agenda'? No except that a new statement concerning the Consent Agenda has appeared on recent Council Agenda and that Councillor Allan Nixon indicated he would veto any item addition to the consent agenda that were not present when agenda was distributed.

It was also noted that the Lynn Valley Village / Town Centre grand opening had been extremely successful though attendance was surpassed by the public concert July 11th which was estimated to have 1200-1500 present.

4. Correspondence Issues

4.1 Business arising from 2 regular emails:

Contents of the 2 letters were outlined. No further discussion was felt necessary on the issues raised in these letters.

4.2 Non-Posted letters – 0 this period

5. New Business

Council and other District issues.

5.1 Freedom of Speech – Rafe Mair

Supreme Court of Canada declared statements by Rafe Mair as "fair comment" – and added the following objective test: could any person honestly express that opinion on the proved facts?

<http://csc.lexum.umontreal.ca/en/2008/2008scc40/2008scc40.html>

http://www.rabble.ca/babble/ultimatebb.php?ubb=get_topic&f=2&t=009833 <http://www.straight.com/print/151918>

5.2 DNV Annual Report Public response in Council Chambers – 7pm Monday June 23/2008.

A 4-page report by Corrie was distributed with the agenda package – the lack of common measurement themes with a consistent choice of year-to-year indicators measuring the well-being of the community – being his prime concern. See: <http://www.fonvca.org/agendas/jul2008/Synopsis-of-2007-annual-report-by-kost.pdf>

This special session/item was felt to have been unduly rushed due to a later Council Workshop meeting scheduled that night on Lower Lynn Conceptual Plan Use.

Corrie indicated he had a very positive meeting with David Stuart on Wednesday July 16 where David outlined that future Annual Reports would have community driven quality of life indicators. Some details were distributed with the agenda and more can be found at www.dnv.org/upload/documents/council_reports/151758.pdf

5.3 Questions for 2008 Municipal Election

Important dates:

Council breaks Jul 14 till Aug 18

Voting day Sat Nov 15th

Nomination period 9am Tuesday Sep 30 to 4pm Friday Oct10

http://www.dnv.org/upload/documents/Election_2008/election_calendar_2008.htm

It was felt that the 2005 questions had been too general and that it would be desirable to be more specific with 2008's questions.

Members are advised that the questionnaire for Municipal Candidates of the Nov 15th election will need to be finalized at the September meeting and so are encouraged to refer these items to their associations for feedback and further input.

A general brainstorming session took place and the follow questions are out for discussion:

1. How should North Vancouver be policed? What are the most important issues and how would you address them?

2. Do you support DNV-owned "for profit" enterprises? What other sources of non-tax revenue do you envisage?

3. How would you improve our handling of solid waste?

4. What date will you commit to for the first draft of the new District Official Community Plan?

5. Where would you charge for parking? (ex. Cates Park, trail heads, Town Centres)

6. Should mountain bikers be charged to use DNV trails?

7. What would you propose to reduce DNV's "carbon footprint"?

8. What do you propose to improve transportation?

9. Do you advocate increased density? If "Yes" where and how?

10. What practical experience qualifies you for local governance?

11. What are your primary goals and visions for DNV over the next 5-10 years?

12. Will you support the current policy requiring a referendum to undedicated previously dedicated parks?

13. What major issues are you concerned about in DNV?

14. What role should community associations play?

15. How would you encourage civic involvement by the public?

For the complete list considered in 2005 see <http://www.fonvca.org/agendas/sep2005/agenda.pdf>

5.4 DNV Statistics (2006 Census)

Hard copies of DNV 2006 statistics was distributed with the agenda. A particular note was made of the 5 year incremental change in population from 1986 to 2006.

5.5 Safety of Cell Towers, Mobile Phones, and Bluetooth

<http://www.bag.admin.ch/themen/strahlung/00053/00673/03571/index.html?lang=en>

<http://www.icnirp.de/documents/emfgdl.pdf>

This is based on a proposal to build an ~55metre telecommunications tower south of Edgemont Village on Highways department lands. A follow-up meeting is to be held to allow residents to express their concerns.

5.6 Alpine Trails Plans

The consultant's report was presented to Council July 7th and endorsed by Council. This includes \$850,000 for parking lots and other amenities plus \$90,000 per year for additional summer ranger staff.

5.7 Pesticide Bylaw

http://www.fonvca.org/agendas/jul2008/DNV_Pesticide_Use_Report_Survey_Dec_2007.PDF

This was adopted by Council at the July 14th meeting and is effective 1 January 2009.

5.8 Resources from Waste

<http://www.cserv.gov.bc.ca/ministry/whatsnew/IRM.htm>

http://www2.news.gov.bc.ca/news_releases_2005-2009/2008CS0070-000784.htm

It was noted Port Moody had recently signed a contract to build a plant to convert waste to energy.

6. Any Other Business

6.1 Legal Issues - None

6.2 Any Other Issues (2 min each)

a) Lower Lynn Land Use Plan – there was a July 16 Council workshop held at the Crown Street site. This **workshop was unusual in that complete Powerpoint packages were available for the public and a time for public input was provided.** At that workshop it was suggested that a survey of usage of industrial land in the area needed to be made as it was felt there were several parcels of underused and unused industrial lands in the study area. It was noted that the 3 plans discussed all meant an additional 3500-4000 new residents and the end of single family dwellings in the plan area.

b) Annual Report & Quality of Life Indicators: covered above under 5.2.

c) Tax Collection – in tax notice packages was an explanation piece explaining the Homeowner Grant. The print on this was considered too small to be read by most taxpayers.

7. Chair & Date of next meeting.

The consensus was to examine holding a social at the usual meeting date of August 21st (Corrie and Dan to get in touch with the selected location) with our next regular meeting to be held **September 18th with the Edgemont CA to chair.**

The meeting was adjourned at 9:25 pm.

District of North Vancouver - Community Planning Working Group

Terms of Reference (Revised, May 14, 2008)

Purpose

To provide advice to staff on a range of community planning processes and issues leading to the review of the Official Community Plan (OCP).

Duties and Responsibilities

- Share expert opinions related to key areas of interest with other participants on the Working Group and offer advice and recommendations to the Steering Committee and Council.
- Provide advice on the development of a draft community vision and principles for a sustainable community for further development and consultation through community engagement processes for the OCP Review.
- Provide advice and recommendations on the strategic framework for the OCP Review process.
- Offer advice on the possible design of and participate in community engagement activities and dialogues to gather broad input on key OCP related planning issues.
- Provide recommendations on issues identified by the Steering Committee.

Establishment

The Community Planning Working Group is to be established by a Steering Committee that will direct the work program and overall functioning of the Working Group.

Membership Composition and Selection

The Community Planning Working Group (CPWG) will consist of a Steering Committee and citizen Working Group. The Steering Committee will include the Chief Administrative Officer (CAO), Director of Sustainability, Planning and Development and the Chair of the Working Group. Two council members will be appointed as liaisons to the Steering Committee and the Working Group (described below).

The Working Group will include approximately 25-30 citizens who bring professional expertise as well as represent a broad range of community interests (listed below). Geographic representation from the Seymour, Lynn Valley and Capilano areas of the District will also be considered through the Working Group membership within the specific areas of community interest. Sub-groups may be formed to work on specific issue areas and tasks.

Community Planning Working Group members will be selected by the Steering Committee through an advertised application process and in a manner that ensures a broad range of community interests are reflected on the Working Group.

Steering Committee

- CAO
- Director, Sustainability, Planning and Development
- Chair, Working Group
- 2 Council liaisons

Working Group

Citizen members representing the following interest areas:

- Housing
- Youth & Children
- Arts and Culture
- Planning
- Community Engagement
- Transportation
- Seniors
- Environment
- Development
- Business
- Community Health
- Social Well-Being and Recreation
- Education and Academia

Authority

- The Community Planning Working Group will be asked to make recommendations on strategic planning initiatives as identified by the Steering Committee.
- The Working Group role will not include advice on day-to-day, operational planning issues and decisions.
- Updates on progress of the Working Group will be provided to Council at key milestones.

Organization

1. A professional facilitator will facilitate the meetings.
2. A simple majority of the existing sitting members shall constitute a quorum.
3. If any member misses three regularly called consecutive monthly meetings without giving a reasonable cause to the Chair in advance, she or he will be deemed to have resigned.
4. Any unexpired, vacant memberships will be filled by the Steering Committee.
5. All points of procedure not specifically provided for in these Terms of Reference shall be decided and determined in accordance with Robert's Rules of Order.
6. Municipal staff shall provide professional advice, as needed.
7. The Working Group may establish sub-groups to work on specific tasks as needed.

Meeting Procedures

1. Community Planning Work Group meetings are anticipated to occur monthly. More frequent Working Group meetings may be needed, as required.
2. Specific meeting dates and the length of each meeting may vary to accommodate the agenda topics and the needs of committee members. Meetings will be held at the District of North Vancouver (DNV) Hall.
3. The Steering Committee will be responsible for preparing agendas for upcoming Community Planning Working Group sessions.
4. Community Planning Working Group meetings will be facilitated by an independent facilitator. The facilitator will be responsible for distributing agendas, focusing discussions and producing Working Group meeting notes.
5. Agendas and information pertinent to meeting discussions will be made available to Working Group members one week prior to the meeting so as to allow members an opportunity to review the information in advance of the meeting and to enable meaningful discussions at the meeting.

Committee Term

The initial term of the Community Planning Working Group will expire on March 31, 2009.

Remuneration

Members will not receive remuneration.

Your Worship & Members of Council,

Re: New Security Alarm Systems Bylaw – Agenda Item #6 Sep 8/2008

Position: That we retain the current bylaw

Rationale:

As noted in the attachment the proposed fee schedule – with heavy-handed fines as well as lack of any forgiveness for an error being made by our residents in the proposed bylaw – is out of keeping with a compassionate and caring society.

The vast majority of residents with alarms provide a service to the community that helps reduce crime, and subsequently lessen the utilization of policing manpower. To charge residents who make the occasional error is both vindictive and counter-productive. As the attached list indicates, ONLY one BC jurisdiction – an RCMP detachment (in Maple Ridge/Pitt Meadows) imposes a substantial fine for the first false alarm, with rapidly escalating fines for subsequent false alarms. Although that jurisdiction has noted no increase in break-ins (due to say many people no longer using an alarm system) – it, unlike many other municipalities (DNV included), has not seen a REDUCTION in break-ins. So it appears that their program is a failure in at least some aspects.

Extreme measures are rarely the appropriate solution. I find it ironic that my automobile insurance company allows me to have one accident, without changing my rates while the District of North Vancouver proposes just the opposite for a security alarm “accident”. Is it possible that private companies can be more compassionate than our local government?

As for process! I was one of two members of the public present at the Council Workshop of Dec 10/2007 where this issue was discussed. Some items I noted were:

- Councillor Nixon requesting a forum with the Alarm Companies in advance of dealing with any proposed changes to a bylaw. Has this taken place?
- On a personal note: We subsidize recreation by \$millions with our taxes – covering some 50% of the cost of this service. Would we then be unwilling to forgive some of our residents for making a mistake which cost residents less than 1% of the recreation cost – some \$1-\$2 /yr/resident?
- That the concept of charging the alarm companies be explored? Has it?
- That council be provided with information as to how alarms reduce crime. Has this been provided? My information indicates that alarmed systems have ¼ of the break-ins of those without alarms.
- That police attendance – even for a false alarm – offers some comfort/benefit to our residents.
- There was a request to know which alarm companies delivered poor service. Where is the response to this?
- Actual response times to alarms are so long that they are unlikely to catch break-ins. This certainly indicates that responses do not impose any safety burdens.
- The question - to what extent should users fund 100% of the costs?

People, especially our (growing) elderly segment of our society, make mistakes. To add fines to their embarrassment shows a lack of tact and leadership. Please leave the existing bylaw in place.

Yours truly,

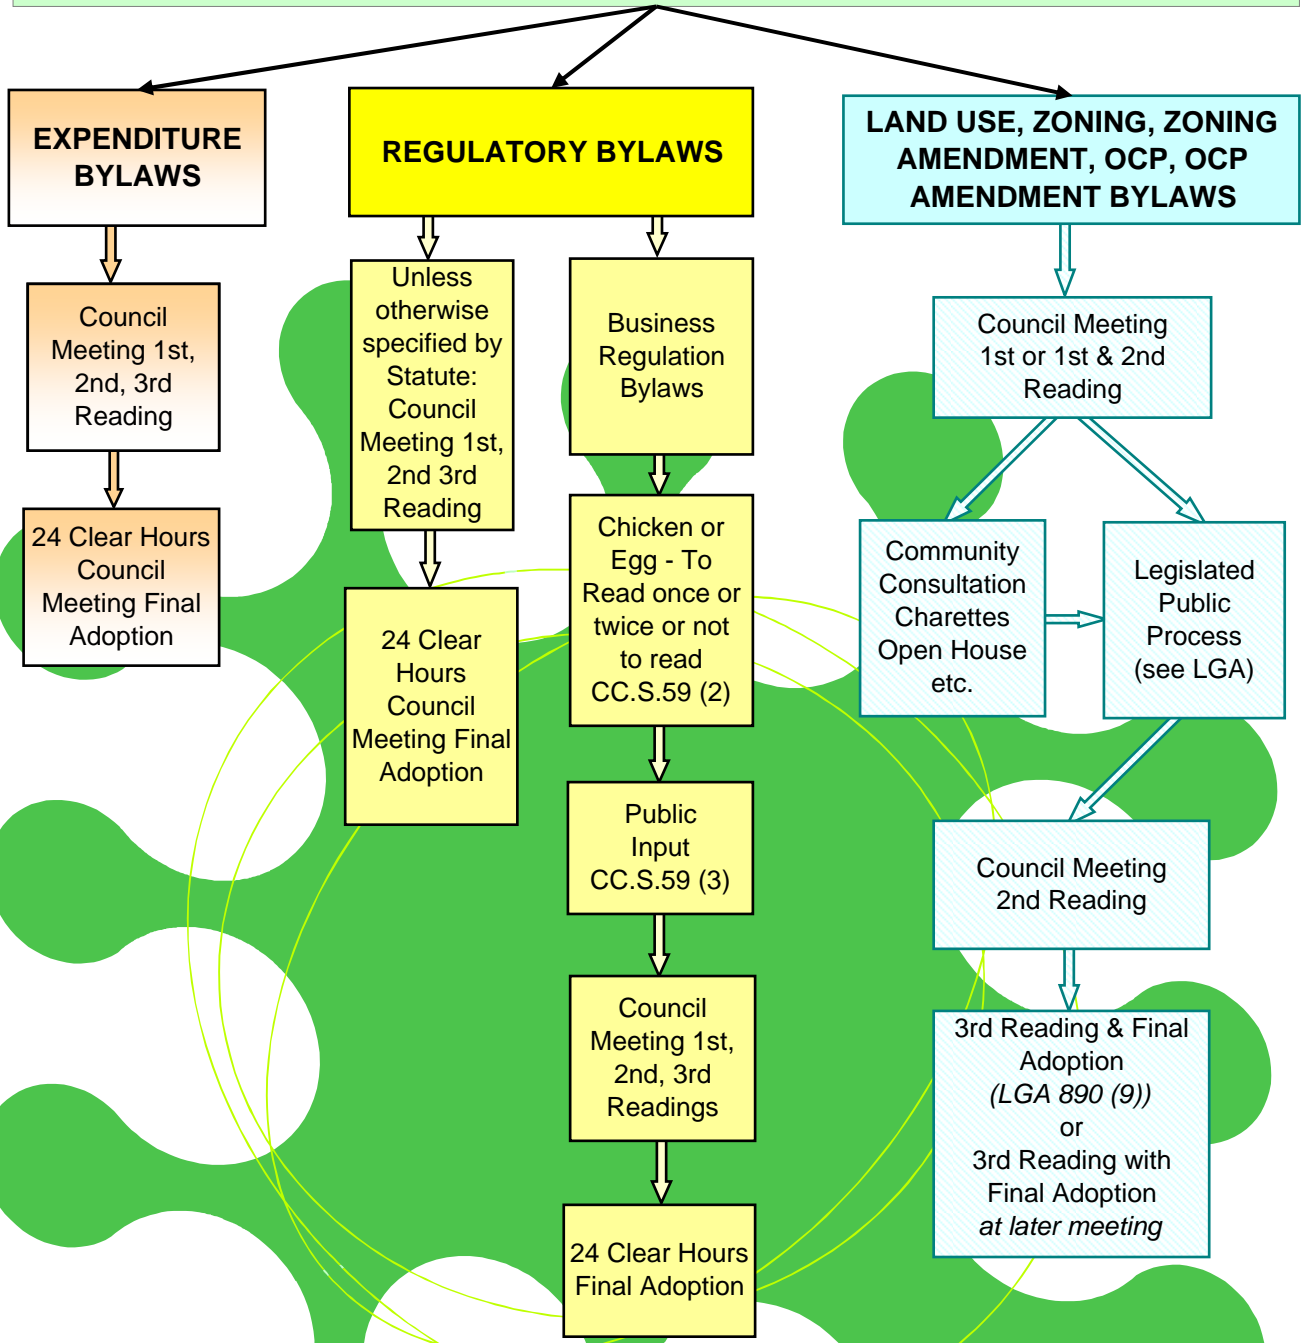

Corrie Kost, 2851 Colwood Dr. North Vancouver, V7R2R3
