Hi Everyone:

I'm sorry to report that yourpolitician.com is out of service (only temporarily I hope). In case anyone was not aware, it was set up to allow municipal, provincial & federal politicians to have a personal web site which was dead easy to maintain & update. They offered a free version or a deluxe template for around \$100/year. As a former subscriber to the site, I thought it was a great service both for politicians & the public who could view their politician's platforms & initiatives at one all-inclusive web site.

Unfortunately the 2 partners have split company. Ray Rogers, the surviving partner & techno whiz, feels he needs a creative marketer to bring the site back to life & generate some cash flow. I think this is a great opportunity for the right person.

I really hope yourpolitican.com gets reactivated as all the major work is done...politicians & details for EVERY Canadian municipality, provincial & federal riding are already in place. Ray can be reached at 980-0193.

Dave Sadler PS Please forward this message to anyone you feel may be interested
