Dear Mr. Sadler

The Answer is yes.

Mr. Torry meets at least 3 times per year with the School District to review their proposed 5 year capital budget. As part of that process we advise John Lewis (School District 44) of anticipated development throughout the municipality that may impact the provision of educational services to North Vancouver District residents. Mr. Lewis uses the information to adjust his school enrolment and facility needs projections accordingly.

Yours truly

Richard Zerr

Subject: District OCP

Dear Richard Zerr:

In regards to the District OCP, has the appropriate consultation with School District #44 taken

place annually as required under Section 881 of the Local Government Act?

Yours truly, Dave Sadler
