Dear Ms. Wilks;

I thank you for your kind words and I could not agree with you more. We have more staff than ever, we spend more money than ever and we also have more supervisors than ever. Maybe this is the problem ... we have too many of them and not enough people who are actually doing the job.

But the real problem in my opinion is that unless and until each and every of us in the District beginning with the Mayor and Council and the top management take pride in our community and pride in what we are doing instead of playing politics, we would have a much more presentable community. I very much appreciate your tested principles.

I will pass this message on to both staff and Council and the Federation of the North Vancouver Community Associations (FONVCA) as well as my own list of community activists.

Thank you for bringing this matter to my attention. Hopefully our staff will actually do something about it.

Yours truly
