> Subject: FW: Police Liaison Committee Meeting

>

> Councillor McKeon Homes.

>

> This is further to my recent comments (e-mail) about your chairing of the recent Police Liaison Committee meeting. You may recall that item "8b)" was listed on the agenda under "Northlands". I indicated to you at the beginning of the meeting that I wanted to raise a point under that item. I enquired as to whether this item should be dealt with In Camera under the provisions of the Police Liaison Committee rules. I also indicated what the nature of my point was namely to determine that status of the investigation. I had every right to do so.

>

> My question to you is on what authority did you rule that this item was off limits as you did? I do not believe that you can answer this question satisfactorily for the simple reason that you had no such authority. Your argument that it was still under investigation is not valid within the terms of my question as indicated. This is the primary reason for my complaint.

>

> You may have been under the impression that this was a District Council meeting when, in fact, it was a Joint Police Liaison Committee conducted in accordance with democratic procedure.
