Mayor & Council:

You will be interested to learn that on this evening's BCTV news broadcast (channel 11) was a segment on the CSB's canopy walkway. The station was given a "sneak preview" of this "million dollar project" that is "the first of its kind in North America" and will officially be opened next month. Both Nancy and son John Stibbard were interviewed and spoke glowingly of the project. They discussed the technical details and also talked about how the elevated structures will be a huge boost to their business. No mention was made of the unauthorized construction and certainly no apology was given. The CSB's publicity machine is set in high gear.

-Brian

PS. If there was ever any doubt that Greenheart's application for a tree-top canopy walkway in Lynn Valley was the reason behind the deliberate unauthorized construction by the CSB then such doubts should be fully erased. The CSB had to be the first, and that meant working illegally without permits 7 days a week up to 14 hours a day (according to the West Van resident who spoke to Council).
