Dear Ms Baker:

What you say is true and not only for your area and it should not be tolerated. It gives a bad impression not only to our own citizens but also to visitors and tourists. It is like presenting a soiled Menu in a restaurant or a dirty personal card. As a Councillor I have led a consistent struggle to ensure that our municipality is neat and tidy, as Mayor I would guarantee it.

In the meantime I will pass your message and my response to you on to Mr. James Ridge, our CAO for his information. Thank you for bringing your concerns to our attention.

Yours truly,

Ernie Crist

Subject: Purcell Way

Good morning: for weeks now the greenspace/boulevard between Lillooet Road and the entrance to Capilano College has looked disgusting. It is so overgrown with four and five foot tall weeds that it is difficult to see if there are vehicles coming before you pull out. I called your engineering department a week ago and was told they have received other complaints also, and that she had put through a request to have it 'mowed' (although there is really no grass on this space). Nothing has been done to this date. I live on Purcell Way, and this boulevard is embarassing to say the least and does nothing for our neighbourhood. The flowers and shrubs that are there are dying and getting choked out by the weeds. It is very bad! I would like to know why it has been allowed to get into this state and why nothing is being done about it.

Your reply would be appreciated.

Janette Baker
