Dear Councillors and DNV Staff: Why does this sports group have all this info before the general public does, with regards to the Alpine Study? This is an abuse of the public trust. ***It is not even on the dnv.org site, yet!!*** This is why the voice of the general, non-mountain biking public is not being heard with regards to the forming of the Alpine Recreational Strategic Plan. Shame on you. It will be heard, in a way not flattering to the District planners at all This does a grave injustice to the proper process of a very important issue, stacking the blocks in favour of a particular user group. For those of the general public who may be interested, please pass on this information ASAP. The next Alpine meeting will be on:

Oct. 19, 2004
5:30-7:30pm
Delbrook Recreation Centre
Oak Room
600 W Queens Rd.
RSVP - 604-990-2450 very important

When a particular "user group" gets this information ahead of the general public, it suggests there is a leak within the District. This is not the first time such information has come into the hands of this particular extreme sport self interest group ahead of the general public's knowledge. Thank you.

Monica Craver

PS. This "thread" shows the time posted is 10-13-2004 06:42 pm Greenwich time. Important documents came up on this web board before the general public saw it too. Last time I looked, there is nothing posted on dnv.org about the meeting. This meeting should be cancelled until the general public has time to hear about it, properly. Also the time of the meeting is very early, ensuring many interested will not make it, as they will be still at work, or enroute. If this is just a "private" meeting with a "particular user group", this is unfair to the general public, also. The writing seems to be already on the stone, it seems.
