Dear Dr. Abel:

Judging by the tone of your email it seems that it is you who has problems with the democratic process not I. Who said anything about banning? To suggest as I have done, that we work with the GVRD and find a better place preferably in electoral area A is surely not a crime. This place is large, the GVRD can build a road, build parking as well as other facilities and the distance notwithstanding District Mayor Bell's contention is very short for a biker.

I am happy to report that this scenario will be investigated. This sport is growing by leaps and bounds and we in the District could not possibly accommodate it all by ourselves. I suggest you ponder this and stop jumping to conclusions. And please tell that to your friends. And by the way the reason I got elected in the first place is because I promised to keep the North Shore livable.

Thank you,

Yours truly,

Ernie Crist

Subject: wake up

Your closed mind is a blight on the democratic process. How did you get elected in the first place? Issues need to be worked on together not by banishing a segment of the population (mountain bikers) from enjoying our fine country along with everyone else. Settle down and use your head.

-Terry Abel
