Subject: Re: North Vancouver RCMP complete large Drug Bust

North Vancouver Drug Section execute a search warrant and three subjects have been
arrested under the Controlled Drugs and Substances Act.

On October 20th, at approximately 6:00 pm, North Vancouver RCMP executed a search warrant
on a residence in the 800 block of Burrard Street in Vancouver. During the initial entry
of the residence precursor chemicals were noted. The premises were vacated by
investigators. Vancouver Police Department, Vancouver Fire Department and HAZMAT team
were called to assist. E Division RCMP Clandestine Lab team and a Health Canada chemist
were also called. The air inside and outside of the residence was found to be safe for
the investigators and the search of the interior continued by the RCMP police officers.
Located was approximately 140lbs of Hydrochloric Acid and approximately 55lbs of red
Phosphorous(both known clan lab precursors). Investigators also located approximately 3
kilograms of crack and powder cocaine and approximately 3000 plus pills of Ecstasy.

Three suspects have been arrested in connection to the above and are to appear in court
this day. As this is in the preliminary stages of the investigation, no further
information is available.

KELLY WEEKS
