A MESSAGE FROM ERNIE CRIST

The Council meeting of November 8,2004 was televised live. I had been unaware that it was. I suspect that a number of residents listened to the debate on the sewer and water rates and also the waste and recycling issue plus the street and traffic bylaw especially the jaywalking and snow and ice removal on all properties including residential properties etc.

I would appreciate some feedback on any of the discussion points including whether it was clear as to what the issues were about. This was an omnibus bill and may have been very confusing as these bylaws are rather comprehensive and complex.

If you have any thoughts on how to improve the forum or the quality of the debate good bad or indifferent, please communicate via email or call me at 986 4531. You may be as critical as you wish including of this councillor - I was trying to make several points by simply asking a number of pertinent questions to staff. Whether I was successful or not is difficult to determine unless I get some feedback.

I am curious to know as to whether in your opinion there is a better way to deal with the subjects we were dealing with?

Thank you,

Yours truly,

Ernie Crist
