I can identify with your concerns John. Adjustments preferable following (vs during) granting process.

OK to post on FONVCA website.

Subject: RE: Grants by DNV

Jim my concerns are the following

-by responding to senior government downloading by DNV giving money, we prove to the senior governments that they can download successfully. It is the same as DNV giving money to the Board of Education like last council night. Once you give money to a panhandler, his hand is always out.

-In my view, DNV Council has no mandate to force me to give involuntarily (i.e. indirectly through DNV)to charities that may not be my choice, or even

if they are ones I favour. Munis should not be in social welfare.

-My initial reaction is - and I may do this - to write every one of those charities to which Monica and I normally contribute and tell them I will no longer do so - and why. And put it in the newspaper.

-I am not disputing the worthiness of the causes. It is just bad policy. It is people (Council) who take the short turn human nature "yes" route and do not see that it hurts the recipients long term. If we did not respond as

you on Council have by handing out money, the organizations would presumably be screaming louder to the other donors.

-And Alan Nixon is quoted in the paper as wanting to raise taxes to give more!!!!!!!!!!

I'd like out OK to post this on the FONVCA website. (your question)

John

See below John:

Grant recommendations are prepared by a representative committee of community volunteers vs. strictly DNV's choice. Impact of grant funding on tax levy is a personal concern although I generally support the good work of

the funded NGOs. Your thoughts?

Did it pass?

Any concern that we are extracting money from ratepayers to give to the charities of DNV's choice rather than letting me give as I see fit?
