Subject: MT.FROMME

Harmless mountain bike trails.Out of all the issues in our world that cause environmental harm/destruction,you try to screw over a group of people who care 1000 times more about the environment than your inadequate mind could ever comprehend.Many letters you have received have been perfectly humane and negotiable,including my previous letters.However, when we someone is backing up something they strongly agree with using good,supported points and facts in a civil manor and are completely ignored,well..

No wonder some letters may seem "rude" or "abusive".

And Mountain Bikers on paved trails?

what are you thinking?
