Hello Barry:

Thank you for publishing my letter. The response so far would confirm what many of us have known for a long time - they don't get it. My advice to them, go and look at the record or rent the video "WHAT THE BLEEP DO WE KNOW" it explains how the human brain functions and why they could not possibly accept what they read.

Ernie Crist

Barry Forward has sent you a link to a weblog:

Ernie:

For the record!

Barry
