Subject: RE: MT Fromme Mountain Biking

Thank you for your email regarding mountain biking on Mount Fromme.  For your information this
issue is still in active discussion. I am anticipating that after the workshop the Alpine
Strategic Plan will be returned to a Council meeting and a formal decision will be made at that
time. Dates of meetings are advertised every Friday in our "District Dialogue" in the North Shore
News.

I am forwarding your email to other members of Council for their information.

Mayor Janice Harris

Subject: MT Fromme Mountain Biking

Councillor Ernie Crist

The proposal by councillor Crist to ban mountain biking from Fromme Mountain is outrageous.  For
the many riders in BC and around the world Fromme is the birth place and pioneering heartland of
our sport.  The prospect of loosing access to mountain bike trails on Fromme would be a fatal blow
to mountain biking in BC and mountain biking in general.

Mountain biking has maintained and continues to gain widespread popularity all over the globe, and
the notion of dismissing mountain bikers as "small interest" group would be very naïve.

As stated by many individuals, mountain biking also presents significant economic benefits to the
greater Vancouver community through tourism.

The preservation of mountain biking on Mt Fromme will be bitterly defended by many including
myself.
