Dear Mr. Orr:

Thank you for copying the Brief by the Seymour Community Association re the 2005 District Financial Plan. I concur with your comments entirely.

I find it absolutely astonishing that the District has failed to keep trails in a state of adequate maintenance while contemplating spending potential \$ millions of the taxpayers money to accommodate an extreme and dangerous sport such as mountain biking by way of example. I made a statement to that effect during last night's Alpine Strategic Plan meeting.

In the same vain I find it curious that we have failed to spend even a minuscule amount of money on the continuation of the program to open up waterfront street-ends which would be of considerable benefit and enjoyment to the public.

These two seemingly unrelated issues are very much related and tell very much the real intention and priorities of the present District Council. I will send my reply to your email to my own community contacts. I trust this meets with your approval.

Thank you,

Yours truly,

Ernie Crist
