Subject: mt. fromme

hello, my name is Jake Toney. I am currently living in Washington State as a U.S. citizen. I am writing this email to you so you may possibly reconsider closing Mt. Fromme for mountain biking. I believe that the north shore is an amazing area and brings in tons of tourists into Canada to ride it. Myself personally included. The mountains give Canada, more particularly the Vancouver area, hundreds of thousands of dollars per year. For example, when I go to Canada to ride, I will stay in hotels, buy gas, food, souverneirs, and countless other items. I believe that this mounain is an important aspect of the Vancouver area and would like to help to keep this area open. Thanks for considering my offer and thanks for your time.

Sincerely,
Jake Toney
