Ms Hilsen.

To clarify the issue, I was trying to determine, in the main, why the "Thompson Geotechnical Report" of Jan. 28 was not distributed to members of Council until July 18, 2005 as stated in your email. I was also trying to determine whether any such document was the subject of a verbal report by the Manager prior to July 18, while the report itself was not handed to members of Council to be taken with them for their records following any such relevant In Camera meeting. I am also trying to determine whether there is any record to that effect.

As of this moment, I find your response not quite clear and must assume that the Thompson Geotechnical Report dated Jan 28, 2005 was not made available to Council until July 18, 2005.

I would appreciate clarification to that effect in writing in your capacity as Clerk.

Thank you,

Ernie Crist

Subject: RE:

Councillor Crist:

The July 18, 2005 Regular Council agenda package included a report from Brian Bydwell dated June 27, 2005 (pages 125 - 150 of the agenda package). Attached to Mr. Bydwell's report was the Thompson Geotechnical report dated January 28, 2005 (Attachment C). This information will be recirculated with the August 22 agenda package, but it's all available on the web at http://www.dnv.org/upload/documents/Council_Reports/549553c.pdf.

A letter dated July 23, 2005 from Mr. Bydwell which attached a follow-up report from Thompson Geotechnical dated July 11, 2005 was circulated to Council via email on July 29.

The two reports regarding the 1979 landslide were placed on the District's website in January 2005. Mr. Ridge will be responding to your questions regarding more recent reports.

Agnes Hilsen

Municipal Clerk,

District of North Vancouver, 355 West Queens Road,

North Vancouver, B.C., V7N 4N5

604-990-2207, FAX: 604-984-9637, ahilsen@dnv.org

Subject:

Ms Hilsen:

I understand from a recent email and from second hand verbal statements that a geotechnical report by "Thompson Geotechnical" dated, Jan. 23, 2005 pertaining to 1593 Lennox and adjacent properties was received by the District. The results of the evaluation according to a letter dated July 23, 2005 by Mr. Brian Bydwell, MAIBC CP, Chief Building Official, to Mr. and Mrs. Stabler at 1593 Lennox Street "were reported in a letter dated Jan. 28,2005".

If I understood a recent email sent by the District Assistant Clerk Shana Burrows correctly, this report of Jan 23,2005 was handed to members of Council to be kept in their possession on or about the same date, i.e. Jan. 23,2005.

As I have no knowledge and have no record that this report was turned over to me in person at that time, please confirm or otherwise, the exact date and circumstance (tracking number when this document was handed to me) in my capacity as an elected official.

I further request to know whether all relevant documents pertaining to the issue of the most recent landslide were given to members of Council and/or whether, at the request of the Manager or any other person, members of Council were not made aware of and/or were prevented from taking any such documents with them to keep for their own record as has frequently been the case in recent years.

Thank you,

Ernie Crist
