Mayor and Council:

I am extremely happy that the Chamber of Commerce has declared that they are taking a leadership role for the upcoming Olympics. I should hope so. I also hope that they will pay for all expenditures associated with that role as indeed they will reap the benefits. That is how it should be.

Can you imagine the mess and the indescribable bureaucracy not to mention the expense that would occur to District taxpayers were the District to accept even any degree of responsibility? The mere thought should make people shudder. I hope this issue will be debated soon and nailed down to make sure that there is no misunderstanding of that declaration by the Chamber in future.
