Dear Mayor and Council:

Petition to the Politicians and Parliaments of the World

We, the undersigned, support the zoos and aquariums of the world, which are carrying out public awareness, conservation breeding, and habitat protection. We call on our leaders and governments to commit resources for urgent global action to rescue frogs and other amphibians: **(I have added my name to this petition)**

(Please note Sir David Attenborough's signature on the petition -- *attachment*. He is the producer of "The Planet Earth", and he will be creating a special series on amphibians next year)

Please work to protect the critical habitat of the Red-Legged Frog and other amphibians in Mountain View Park and environs from further degradation -- in January 2008. Please ban the ecologically consumptive free-ride, extreme and north shore style mountain biking activities from the area. Thank you.
