

**Subject:** Didn't this happen in District of North Vancouver, also?

Isn't this just like a "blast from the past", when the District of North Vancouver also looked the other way while mountain bikers cut down mature trees on DNV alpine land to construct daredevil jumps, etc.? Look where it got us. First mountain bikers come in illegally, then they bully everybody to let them stay. The same story over and over again. When will the authorities stop being scammed by mountain bikers? Remember Dan Cowan and the Watchamacallit Structure/Trail? Many have already forgotten, and invited him to the Lynn Valley Day celebrations, this year, *like a hero*. For shame!

Those who forget the past (or do not learn from the past), are condemned to repeat it. In the era of "sound bites", many have very short memories.
