Honorable representatives,

As a first hand observer of the sport and political lobby of mountain biking, I request that you seriously consider allowing this destructive activity on any public lands, especially those where sensitive habitats exist.

We in California are weary of the persistent violations, wanton destruction of sensitive land, trail building without any permission, trespassing, aggression on the part of mountain bikers toward other trail users (including the death of horses forced off trails by speeding mountain bikers).

Please research the record and the lawsuits. Mountain biking has a dismal history of interaction with other persons and animals. Its history of nature destruction is well known.

Thank you,
Sincerely,
Therese F. Alvillar
California
